

Contribution Agreement for Group Assignments

Lab Section: _____

Lab Assignment: _____

Staple this sheet to the cover of your group report.
Your GSI will keep this agreement.
Each student should keep a copy of this agreement for their records.

This agreement will help to ensure that all members of each group contribute equally during the semester to group assignments. It is not expected that all students of a group will contribute equally to each assignment, but all students should contribute equally over the course of the semester. If in the opinion of the GSI students are not contributing, the GSI can give different grades to students for that assignment.

Please indicate below the names of the group members and the percent of the total work each person contributed to this assignment. Round the percent contribution to the nearest 5%, and be certain that the total of all contributions equals 100%. The percent contribution should represent the time and involvement dedicated by that person. In each case, the contribution should be determined by group agreement, not one person. If there is a dispute which can not be resolved, consult your GSI.

Your signature below indicates that:

- 1) You agree with the percent contribution indicated for yourself.
- 2) You agree with the percent contributions indicated for other group members.
- 3) You understand that consistently low contributions by you will lower your course grade.
- 4) You have read the final version of your group's report and approve of it.
- 5) You have not plagiarized your section and cited all sources.

<u>Name</u>	<u>% Contribution</u>	<u>Signature</u>
