### PROP RESERVATION FORM
#### Anatomy Enrichment Program, IB 133, Spring 2009

**Preserved Specimen Rules:**
1. Dissecting supplies to be used for purchased organs only, not for IB 133 specimens.
2. Gloves, viewing pans, and pointer sticks for demonstrating specimens are available in the Prop Room (3034 VLSB). Please use the plastic buckets provided to you to transport preserved specimens. Clean up any alcohol spills.

### GSI Approval:
- **Team #:**
- **Team Leader’s Name:**

### BODY FLUIDS
- Blood (3 separate one-quart bottles) (2)
- Urine (1 bottle, containing 3 pints)
- Menstrual Blood, 35 ml

### BONES
- Bisected Left Temporal Bone
- Decalcified Bone/Brittle Bone Kit
- Plastic Human Bone Box (#31, 32, 33, 34)
- Plastic Human Skull (#11, #12)

### PAPER CHARTS
- Diagrammatic View of the Eye (3)
- Dimensional Man (6 ft. Anatomical Chart)
- Heart: Basal/Diaphragmatic Surfaces
- Heart Diseases
- Your Circulatory System

### LAMINATED CHARTS (very detailed)
- Anatomy of the Brain (2)
- Digestive System (2)
- Ear: Organs of Hearing & Balance
- Eye (2)
- Female Reproductive System (2)
- Kidney
- Male Reproductive System (2)
- Muscular System (2)
- Nervous System
- Pregnancy & Birth
- Respiratory System (2)
- Skeletal System (2)
- Vertebral Column

### CHARTS (for Grades K-12)
- Bladder Control Problems
- Heart: Basal/Diaphragmatic Surface
- Heart Disease
- How Your Circulatory System Works
- How Your Heart and Lungs Work
- What Blood Does (9” x 17”)

### MODELS
- 4 Abdominal Regions in Male Pelvis
- Liver, stomach, am & lg intestine
- Articulating Lumbar & Sacrum Spinal Column
- Bell Jar Lung (3)
- Bisected Human Brain (life size)
- Death of a Bone (normal/osteooporotic)
- Digestive System (plastic relief)
- Digestive Tube, 25 feet long (3)
- Digestive Tube, 19 feet long
- Enlarged Ear, 4 parts
- Eye (3)
- Heart (#1, 2, 3, 4)
- Kidney & Adrenal Gland (2)
- Larynx, small and large
- Liver/Gallbladder (ligaments, vc, hepatic)
- Occluded Artery (10x life size)
- Oral & Nasal Cavities, Sinuses
- Pancreas, Spleen, Duodenum (plastic)
- Pancreas, Spleen, Duodenum, Gallbladder, Kidneys & Adrenal Gland (plastic)
- Spinal Column & Pelvis (12” high)
- Stomach (life size)
- Tall Paul Torso (53” high) (2)

### HUBBARD PLAQUES
- Circulatory System (2)
- Digestive System (2)
- Ear
- Nervous System
- Respiratory System (2)
- Urinary System (2)

### FELT BOARDS/FLOOR PUZZLES
- Skeleton Floor Puzzle, 42” long, 15 pieces (2)
- Felt Board (30” W x 39” H) (4)
- Felt Skeleton, 35” H, 18 pieces (3)

### PRESERVED SPECIMENS
- BRAINS:
  - Whole Human Brain (3)
  - Bisected Human Brain
  - Half Human Brains (2 halves)
  - Dura Mater: Rat Brain
  - Whole Sheep Brains (2)
  - Hemisected Sheep Brains (2)
  - Sheep Brain Coronal Sections (2)
  - Sheep Brain Parasagittal Sections (2)

### SPINAL CORDS:
- Human Spinal Cord & Sections (2)
- Human Spinal Cords
- Bovine Spinal Cords & Sections

### EYES:
- Cow Eyes, 3, dissected (2)
- Cow eyes, 2, with ext. muscles, optic nerve (3)

### HEARTS:
- Human Heart, dissected (4)
- Human Hearts, 2, dissected
- Calf Heart, dissected (3)
- Cow Heart, dissected
- Lamb Hearts, 2, dissected
- Sheep Heart w/aorta & trachea, dissected
- Sheep Hearts, 2, dissected (2)

### KIDNEYS:
- Cow & Pig Kidneys, frontally sectioned
- Pig Kidneys, 2, whole & frontally sectioned

### LUNGS:
- Human Lungs w/bronchi and trachea
- Non-Smoker’s Lungs (from IB 131L #12)
- Smoker’s Lungs (from IB 131L #11)
- Smoker’s Lungs

### SHEEP PLUCKS:
- Heart, Lungs, Trachea (3)

### OTHER SUPPLIES (dissecting supplies for purchased organs ONLY, not for Prop Room specimens.)
- Stethoscopes, 6 each (3)
- Dissecting Kit (#1, 2, 3, 4, or 5)
- Sectioning Knife, 8” blade (#1, 2, 3, 4)
- Metal Display/Dissecting Trays
- Latex Gloves (Small, Medium, Large)

### DAY of WEEK DATE

**PICK UP:**

**RETURN:**

**DAYS TEACHING:**
Remember, Pick Up at 11:00 and Drop Off at 10:00
Prop Room is in 3034 VLSB (⇒Support Staff are in rm. 3018)
