

Interested in teaching biology?
Eager to continue participating in your favorite lab classes?
Become an Undergraduate Learning Mentor!

Enroll in these IB courses:

IB 192
Applied Pedagogy in Integrative Biology
2-3 units, P/NP

Gain experience and confidence implementing pedagogical practices introduced in IB 193.
Develop skills important to teaching upper division lab courses.
Guide the learning experiences of IB undergrads.
Partner with a GSI to engage in mentored classroom experiences.

Students must enroll in IB 193 the first time that they participate in IB 192.

IB 193
Practical Pedagogy: Becoming an Effective Instructor in Biology
1 unit, P/NP

Learn critical pedagogical practices for teaching biology lab courses.
This seminar-format course provides the conceptual framework for participating in IB 192.

Students must enroll in 193 the first time that they participate in IB 192.
